## 10.0 FINANCES

François Beaudry explains that a French translation of the Financial Report could not be presented as the Auditor was late in delivering his work. However, the Auditor's Report was translated.

He stresses the fact that auditing the 2015 Financial Report was a very good decision, as it provided reassurance and gave more confidence to the Board and Members regarding the state of our finances.

### **Auditor's Report**

Auditor's Report on pages 31 - 33.

François Beaudry reads out a few points from the Auditor' Report.

### **Financial Report**

Mark Cummings, Finance Director at Holstein Canada, the firm we hired for our accounting, presents the Financial Report, found on pages 34 – 41.

He specifies that an audit ought to comply with a certain number of rules and, when financial reports have not been audited for several years, corrections must often be made to previous financial reports. This explains why 2014 is now finishing with a deficit of \$21,979 instead of a profit of \$14,787; and, if we exclude investment revenues, this deficit would actually be of \$39,857. Mr. Cummings mentions that 2015 was a good year, even though it is finishing with a deficit of \$27,979, which includes amortization expenses. He confirms that, with this audit, all 2014 and 2015 figures have been verified and are now exact. He highlights that our cost control is excellent as there has been a reduction in costs, the percentage of which is higher than the percentage of the decrease in revenues. He ends by mentioning that our liquidity is good.

It is asked whether there are any questions.

No questions.

François Beaudry thanks Mr. Cummings and highlights that his recommendations and knowledge have been much appreciated.

## 11.0 NOMINATION OF AN AUDITOR FOR THE REVIEW ENGAGEMENT OR AUDIT

The Assembly is asked whether they wish to nominate an auditor or prefer to leave the task of requesting quotes and making a decision to the Board of Directors

## 15. BYLAWS CHANGES

Section 11 (2) (a)

### Current Bylaw:

For all general meetings, a notice of at least twenty (20) days in advance shall be sent by mail to the last known post office address of each member in the form of a circular letter, postage prepaid, indicating the time and place of the meeting and purpose for which it is called. The mailing of a form letter can be replaced by the publication of the notice in the Canadian Ayrshire Review.

**Proposed Amendment:**

For all general meetings, a notice of at least twenty (20) days in advance shall be sent by mail to the last known post office address of each member in the form of a circular letter, postage prepaid, indicating the time and place of the meeting and purpose for which it is called. The mailing of a form letter can be replaced by the publication of the notice in the Canadian Ayrshire Review or on the official website of the Association.

Reason:

Publishing notices, or any other information, in the Ayrshire Review is very costly. Since our website is a timely, accessible, and economical electronic tool, it is necessary to make this change.

Since many large herds are not using robotics and data can be lost, it is asked to use the term "automated milking system" instead of "robots". It is specified that a project is currently underway at CDN, in collaboration with other partners, to recover the maximum number of data and lose as little as possible.
